SUBJECT: Fiscal Year (FY) 2006 Fuel Price Change

Recent decreases in world fuel prices, coupled with revised fuel projections from the Office of Management and Budget for the remainder of FY 2006, and an increase in the fuel supplemental funding provided in the FY 2006 Department of Defense Appropriations Act, has allowed the lowering of existing FY 2006 fuel pricing to the Services.

Effective February 1, 2006, the FY 2006 fuel standard price is decreased from \$89.88 per barrel to \$84.00 per barrel. A breakdown of the new fuel prices by fuel type is attached.

A handwritten signature in black ink, appearing to read "John P. Roth", is positioned above the printed name.

John P. Roth  
Deputy Comptroller
